AUSTRO-GERMAN VICTORY EXTENDS ACROSS WHOLE OF EASTERN GALICIA

Berlin Believes Russian Advance is Positively Checked-Number of Prisoners Taken Small in Proportion to Former Bottles, But Victory More Important-Berlin Wild With Enthusiasm-City Bedecked With Flags by Order of Military Authorities and Entire Populace Joins in Celebration.

London, May 3 .- According to Berlin and Vienna, the German and Austrian armies have achieved a notable victory in West Calicia, smashing the entire Russian center along a front of many miles. The Berlin official statement claims the victory entends across the whole of the eastern tip of Galicia, from near the Hungarian border to a point where the river Dunajec joins the Vistual on the eastern frontier of Poland.

Although the eight thousand prisoners the Germans and Austrians say they have taken doesn't compare with the number which some of Field Marshal von Hindenburg's rushes netted him in the north, the achievement, if subsequent reports substantiate it, means at least a temporary check of the Russians who have been harminering hteir way westward since the fall of Przemyl.

If the Austro-German contentions relative to the Galician situation are correct, according to some military writers, it will mean the whole whole Russian compaign in the Carpathians is seriously affected. It would make extremely precarious the position of the Russians troops pressing down the southern slopes toward the plains of Hungary.
